EDUCATION

Central Institute of Technology Kokrajhar

B.Tech in Computer Science and Engineering (C.G.P.A :7.06)

Kokrajhar, Assam

July 2023 – June 2026

PCPS Girls' Polytechnic

Diploma in Computer Science and Engineering (C.G.P.A: 8.0)

Barmunimaidam, Assam

July 2020 – July 2023

Puthmari H.S School

H.S in Arts Stream (Percentage: 64.4%)

Puthmari, Assam

June 2018 – June 2020

EXPERIENCE

NEILIT Kokrajhar

Work-Based Learning Intern

Assam

Feb 2026 – Present

- Taught MS Excel, PowerPoint, MS Word & OS as a classroom instructor.
- Trained firefighters on firewall concepts at SP Office, Kokrajhar.
- Built an AI-based content & Ad Generator project.

IIIT Guwahati

Deep Learning Research Intern

Assam

May 2025 – June 2025

- Developed deep learning models for user authentication using gait recognition.
- Trained LeNet-5, VGG16 & ResNet achieving up to 99% classification accuracy.
- Reduced model size by 75% through quantization for edge deployment.

AMTRON

Web Design Trainee

Barmunimaidam, Assam

Mar 2022 – Apr 2022

- Completed web design training covering HTML and CSS fundamentals.

NSIC – Technical Service Centre

Student Database Software Management

Guwahati, Assam

Mar 2022 – Apr 2022

- Developed a student database management system using MS Excel and SQL.

PROJECTS

Federated AI for Privacy-Preserving Healthcare Diagnostics in Hospitals

Python, PyTorch, FLwr

July 2025 – June 2026

CIT Kokrajhar, Assam

- Designed and implemented a privacy-preserving federated learning system across 3 hospital nodes: ALCARE (Lal Ganesh, Guwahati), OVALE (Baitata Chariali), and PRIME (Amingaon).
- Achieved 94.4% diagnostic accuracy while ensuring complete patient data confidentiality.
- Proved feasibility for rural Assam healthcare deployment.

Dynamic Server Selection using Reinforcement Learning

Python, Reinforcement Learning

Jan 2025 – Present

CIT Kokrajhar, Assam

- Built an RL-based agent for optimal server selection in edge computing networks.

Hostel Management System

HTML, CSS, JavaScript, Python, SQL

Jan 2025 – July 2025

PCPS Girls' Polytechnic, Barmunimaidam

- Developing a web-based hostel management system for room allocation and student record management.

TECHNICAL SKILLS

Languages: Python, C, JavaScript, HTML/CSS, SQL

AI/ML: Machine Learning, Deep Learning, Federated Learning, Reinforcement Learning

Frameworks: React, Node.js, Flower, TensorFlow

Developer Tools: Git, GitHub, VS Code, Google Colab

Libraries: Pandas, NumPy, Matplotlib
